

## COVID-19 - GUIDANCE FOR GUESTS STAYING AND VISITING FEDERATION HOUSE FROM 4th January 2022

- This copy supersedes previous guidance notes to cover the period of step 4 of the roadmap.
- There are still cases of Covid-19 in England and there is a risk you could catch or pass on the virus, even if you are fully vaccinated. You are encouraged to exercise caution and consider the risks. While no situation is risk free, there are actions we can take to protect ourselves and others around us.

### 1. Assistance

Our building is always staffed by a Duty Manager and/or Receptionist, who can be contacted on 01372 352000 or 07714 747025.

### 2. Temperature Checking

**A high temperature is one of the main symptoms and checking temperatures will identify some people with Covid-19.**

Upon arrival, all guests will have their temperature checked at reception using the thermographic temperature booth.

If you leave the premises at any time your temperature will need to be retaken upon entering again.

The standard body temperature is usually between 36.5–37.5°C. **Anyone with a temperature reading of 38°C or more will not be permitted to enter the building and will be asked to return home.**

Whilst this process will not identify everyone who may be ill, it is a recommended precaution in addition to social distancing, sanitising, PPE etc.

### 3. Isolation

Any guest who has either of the following will be instructed **not** to come to the hotel and to follow government guidance on self-isolation:

- a high temperature
- a new, continuous cough
- a loss of, or change to, your sense of smell or taste
- within 10 days of being in contact with someone infected with Covid-19, unless they are:
  - fully vaccinated (14 days have passed since your final dose of Covid-19 vaccine given by the NHS)
  - not vaccinated for medical reasons
  - Under 18yrs & 6 mths old

- Part of a Covid 19 vaccine trial
- Fully vaccinated contacts of someone with Covid-19 should take rapid lateral tests every day for 7 days. If you test positive or develop symptoms you must self-isolate. You can stop self-isolating after 7 days instead of 10 days if you get 2 negative lateral flow results on day 6 & 7.

#### 4. Face Coverings

COVID-19 spreads through the air by droplets and aerosols exhaled from the nose and mouth of an infected person.

Wearing a face covering will reduce your risk and the risk to others, where you come into contact with people you don't normally meet in enclosed and crowded spaces.

- Face coverings are a legal requirement (unless you are exempt) and must be worn in all public areas except when eating or drinking (seated); face coverings are available at Reception and gloves will be provided to any person wishing to use them.

#### 5. Sanitisers

**Sanitising units** available at all entrance and exit points and at each lift point.

**Sanitiser dispensers** are located on the reception desk, coffee points and in the bar and restaurant areas

#### 6. Bedroom Cleaning

This will be provided **on request only** to avoid unnecessary risk.

Please hang the "please service my room" sign on your door before 9am, each day you require a cleaning service.

#### 7. Catering

##### **Breakfast\***

Mon - Fri 7.30-9.30am

Sat & Sun 8.00-10.00am.

*\*Please queue at the end of the counter and our staff will tray up your order for you to collect at the other end of the counter.*

Tea and coffee are self-serve from the two coffee stations.

### **Lunch\***
